

Super little Party Bags. Perfect for take home cake!

ALL YOU NEED IS:-

Plain Cotton Fabric in Red, White or Blue.

Decorative Threads in Red, White and Blue.

Your Brother Sewing Machine.

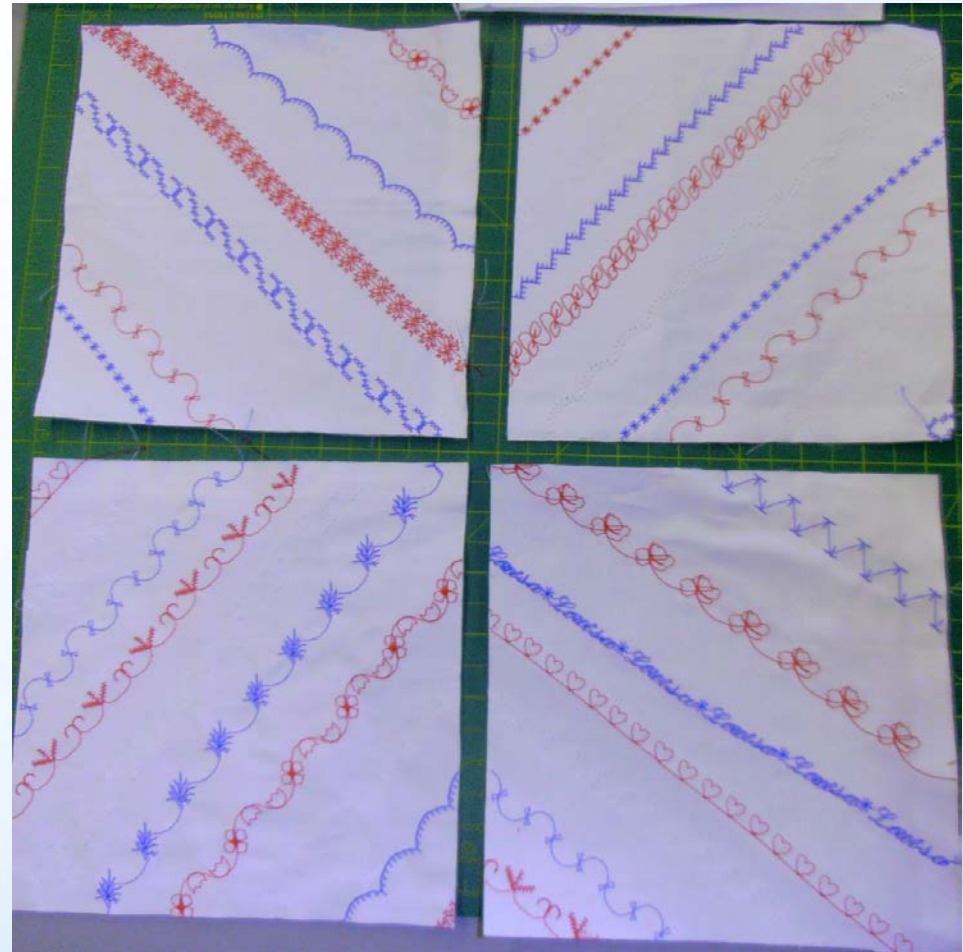

Scissors and Ruler.

Prepare Your Fabric

Decide the size of your finished bags.

Cut your Bag fabric to size. You will need 4 pieces in total for a lined bag.

Select decorative stitches from your Brother Sewing Machine and decorate your fabric with your contrasting thread.

The Handles

Make your handles from long strips of your cotton fabric.

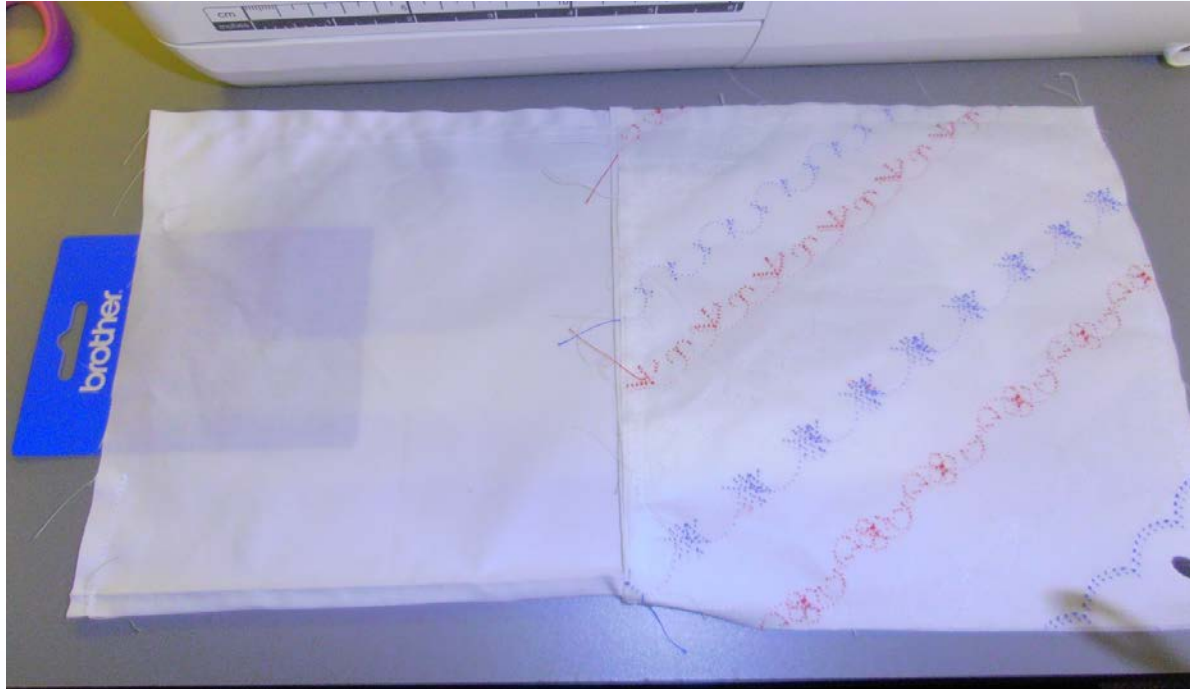

The size will depend on your bag, here I used 2.5inch wide.

Fold in and press a small hem along the length on both sides and fold the whole thing in half, stitch closed.

Attach the back piece and handles in desired position.

Add The Lining

Add your lining to the bag and sew all the way around, leaving a small seam open for turning through.

Finish with a flat top stitch around the top of your bag, securing the handles.

This will help to keep the shape.

Fill with Cake, Gifts and Keepsakes for your party guests to take home!
